

LIPOSOMAL NUTRACEUTICALS

OUR LIPOSOMAL PORTFOLIO

Developed as per Indian *fssai* Guidelines

VITAMINS

- › Liposomal Vitamin C
- › Liposomal Vitamin D3
- › Liposomal Vitamin B12
- › Liposomal B-Complex
- › Liposomal Vitamins A, E & K
- › Other Vitamins on request

MINERALS

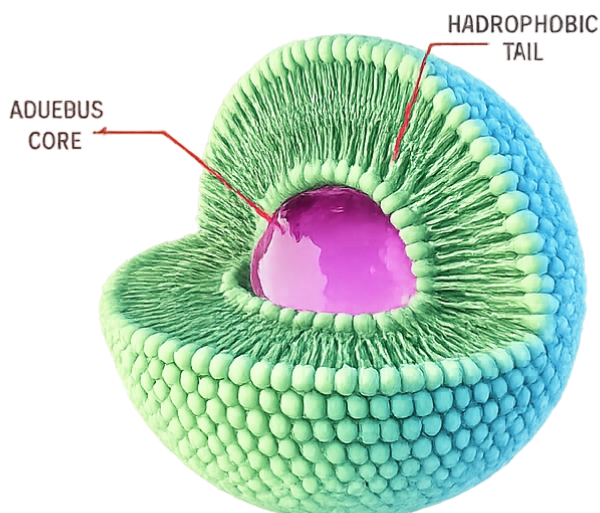

- › Liposomal Iron
- › Liposomal Zinc
- › Liposomal Magnesium
- › Liposomal Calcium
- › Liposomal Selenium
- › Other minerals on request

ANTIOXIDANTS & PREMIUM ACTIVES

- › Liposomal Glutathione
- › Liposomal Coenzyme Q10
- › Liposomal Curcumin
- › Liposomal Resveratrol
- › Liposomal Alpha Lipoic Acid
- › Other actives on request

AMINO ACIDS & FUNCTIONAL INGREDIENTS

- › Liposomal L-Carnitine
- › Liposomal L-Glutamine
- › Liposomal L-Arginine
- › Liposomal NAC
- › Liposomal Choline
- › Other Actives on request

DOSAGE FORMS WE OFFER

- › Designed for convenience, compliance, and consumer appeal:
- › Oral Liquids & Syrups
- › Ready-to-Drink Shots
- › Sachets
- › Capsules
- › Concentrated Suspensions
- › Custom dosage forms available

WHY PARTNER WITH US?

- › Your trusted CDMO for liposomal nutraceuticals
 - › Advanced liposomal encapsulation expertise
 - › End-to-end support: Concept to Commercialization
 - › Scalable manufacturing for startups & established brands
 - › Custom formulations & private labeling
- Strong quality assurance & documentation support

Product Benefits & Features

01

Improved Absorption
Enhances the bioavailability of nutrients for better effectiveness.

02

Stability Protection
Shields sensitive ingredients from degradation, ensuring longer shelf life

03

Targeted Delivery
Delivers nutrients directly to specific cells or tissues for precise health benefits.

04

Taste & Odor Masking
Masks unpleasant tastes and odors, making products more enjoyable.

05

Enhanced Cellular Uptake
Facilitates better absorption at the cellular level.

06

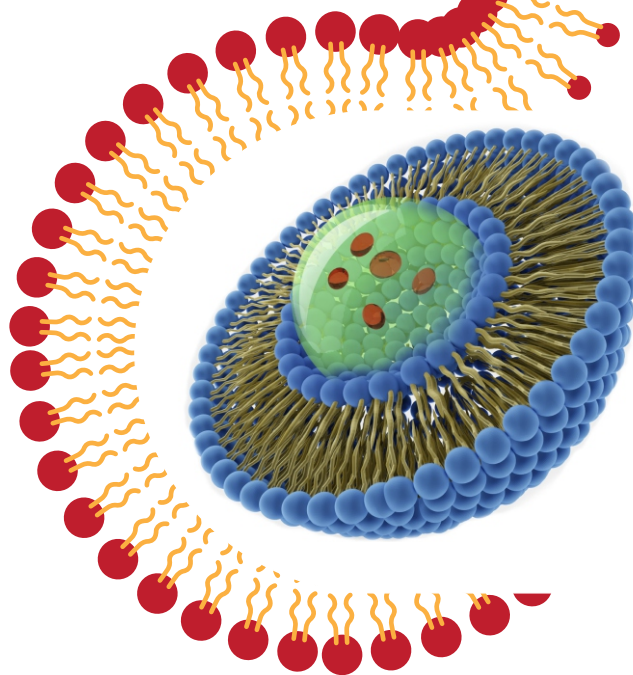

Low Dosage Requirement
Achieves effectiveness with smaller, more efficient doses

FSSAI-COMPLIANT. QUALITY-DRIVEN.

- › All formulations are:
- › Developed using FSSAI-approved ingredients
- › Designed within permissible dosage limits
- › Manufactured in certified facilities
- › Stability tested for shelf life & performance
- › Supported with labeling & regulatory guidance
