QUICKSNAP™ – NEXT-GEN SINGLE-SERVE DISPENSING TECHNOLOGY

Precision. Convenience. Innovation.

The One Hand Opening
Unit Dose

QuickSnap™ can package a diverse universe of formulations, enabling brands to expand into new categories with unmatched convenience

WHAT IS QUICKSNAP™?

QuickSnap™ is a fold-to-dispense, unit-dose packaging system created for liquids, emulsions, concentrates, and functional beverages. A simple fold of the pack activates a controlled break at the center, releasing the exact dose directly into the mouth, into water, or onto food—without spillage, contamination, or the need for cutting/tearing.

QuickSnap™ can package a diverse universe of formulations, enabling brands to expand into new categories with unmatched convenience.

QuickSnap™ is ideal for:

On-the-go
nutrition

Premium product
launches

Hygienic
single-dose delivery

Travel-friendly
consumption
